Week 12-2024

Agent /TrueDEM Manager?	Version	Description
TrueDEM Agent	1.20.14	<p>Features</p> <ul style="list-style-type: none">We've added an option to do on-demand updates from within the agent itself when newer updates are available. Updates are pushed automatically by the Agent Manager and other methods but there are situations where an immediate update is preferred. With this option that is now possible.We've added a capability to upload the TrueDEM Agent Logs in the Agent settings view for troubleshooting purposes. This upload Logs capability also includes the upload of the TrueDEM Manager logs (Note: For the TrueDEM Manager log upload to work, the TrueDEM Manager install path should be set to the default) <p>Improvements</p> <ul style="list-style-type: none">This version supports the latest public Teams v2 versionWe've updated certain Microsoft libraries to the latest version availableWe added additional information to ease troubleshooting in EntraIDWe reduced the scope and amount of data retrieved to optimize performance and functionality.
